

# Ahmed Rashad

## Frontend Web Developer

I am a highly skilled Frontend Web Developer with expertise in creating seamless user interfaces (UI) and enhancing user experiences (UX) that can match with all requirements of my clients and in all device platforms. With the help of my abilities to effectively self-manage during independent projects and collaborate in a team setting, I can achieve all the desired projects and demands of my clients to the most appropriate and best looking and functioning setting and way before any deadline.

## WORK EXPERIENCE

### Freelancer

#### Workplace/Company

11/2022 - Present

WorldWide

I serve clients all over the world through online services.

#### Missions and Skills learnt

- I'm a certified web developer who have already worked with online clients abroad and have my own portfolio website that shows all my cooperation with clients. Working with clients gave me a great experience about dealing with different situations and the best solutions for every complication to achieve the best outcome from the cooperation that me and the client are in.

### Frontend Web Developer

#### Brandia

12/2022 - 05/2023

Cairo, Egypt

Local Web Designing and UI/UX agency

#### Missions and Skills learnt

- I worked in a local agency of frontend web development that provided the clients with a lot of enhanced web pages with highly animated designs along with UI/UX designs to match all the modern designs. I learned much about different design aspects that enabled me to match all the needs of clients along with the influence of trends of the recent designs.
